**9-month English language course** in London customised to your academic needs

**Guaranteed admission** for up to 11 universities in the UK

**On-site accommodation** and free weekly social events

**Join a ready-made community** of students from 85+ countries

Everyone has been so friendly, giving guidance at each stage of applying to university. Teachers have also been really helpful, explaining topics clearly and making us understand the assessment tasks.

Agigi from Taiwan who had offers from Royal Holloway, Brunel and Sussex University

# DISCOVER OUR UNIVERSITY FOUNDATION PROGRAMME

**Our pre-university preparatory programme will help you to:**

Develop study and research skills appropriate to the UK Higher Education environment.

Acclimate to living and studying in another country and cultural context.

Study, collaborate, and socialise with students from all over the world.

# THE BENEFITS OF STAY CAMPUS LONDON

## **Guaranteed Progression**

The University Foundation Programme is your gateway to a wide range of prestigious degree courses through progression agreements with 11 UK universities including courses in Art and Design, Business Management, Engineering, Law and Social Sciences, and Medicine.

## **All the Preparation, None of the Pressure**

If you know you want to go to university in the UK but you're still not sure which institution is right for you or which degree programme you're aiming for, then we are an easy starting point. Rather than getting locked into one place, our programme will give you access to dozens of British universities!

## **University Application Assistance**

We support each individual student with the UCAS university application process and will give you all the practical advice you need to help you advance to your preferred choice of university in the UK.

## **One-to-One Support**

Our team of tutors are highly qualified and have experience teaching international students, so they understand the kind of personal support you may need. You'll also benefit from one-to-one tutorials each month to track your progress. This kind of individual attention is what makes Stay Campus London so special!

## **Preparation for British Academic Life**

A vital part of our programme involves training students to adapt their skills and knowledge to the specific context and environment they will encounter when they are enrolled in undergraduate courses.

## **Small Class Sizes**

At Stay Campus London, you'll enjoy our smaller classes for individualised learning, with a maximum of 12 international students per class. Our academic team is committed to ensuring you gain the necessary academic skills required to attend university in the UK.

Within our self-contained campus - with accommodation, classes, social facilities and catering all in the same building – you'll have the perfect environment for you to develop on every level.

### **UK University-style Teaching**

Our teaching staff actively encourages students to evaluate and apply information, and to appreciate the relationship between theories, concepts and the real world. Guest speakers from industry and business will enhance the student experience, enabling you to benefit from their knowledge, advice and guidance.

### **Dedicated Support Throughout your Pathway Programme**

Whatever your level when you first arrive at Stay Campus London, your academic tutor will take a special interest in your individual progress and help you develop your study plan accordingly. Dedicated student support teams are always on-hand to provide counselling throughout your journey with us.

### **Top Notch Facilities**

Stay Campus London's modern classrooms are equipped with the latest teaching and learning technology and designed specifically for today's students. Our libraries, study centres, and co-working zones offer a flexible space for you to work alone or in groups. Students also have 24/7 access to online resources, study tools and materials.

### **An International Environment**

Our team of academic professionals comes from all over the world and will help you develop the social and study skills required for a UK higher education institution. Plus, you'll enjoy living and socialising with our diverse student body from over 85 countries!

### **Social Calendar, Discounts and Perks**

We have an in-house events team who host regular activities for all students, free of charge. And when you stay with us, thanks to our partner network, you'll automatically get discounts all across London on food, drinks, nights out, gyms, storage space and more!

### **6 Great Locations Across London**

We're located in the student capital of the world – London! Choose from any of our six campuses conveniently located along London's tube lines and offering easy access to the city's attractions, train stations, and major airports.

### **On-site Accommodation**

Stay with us and you'll find everything you need under one roof, giving you a supportive network and avoiding all the hassle of commuting. Whether you're attending this course on your own or with friends, we'll always have space for you. All rooms come with an en-suite bathroom, kitchenette and optional weekly cleaning and linen service.

# PROGRESSION ROUTES

Delivered in collaboration with and moderated by the International Foundation Group, Stay Campus London's University Foundation Programme is designed for international students who wish to progress on to undergraduate courses at British universities.

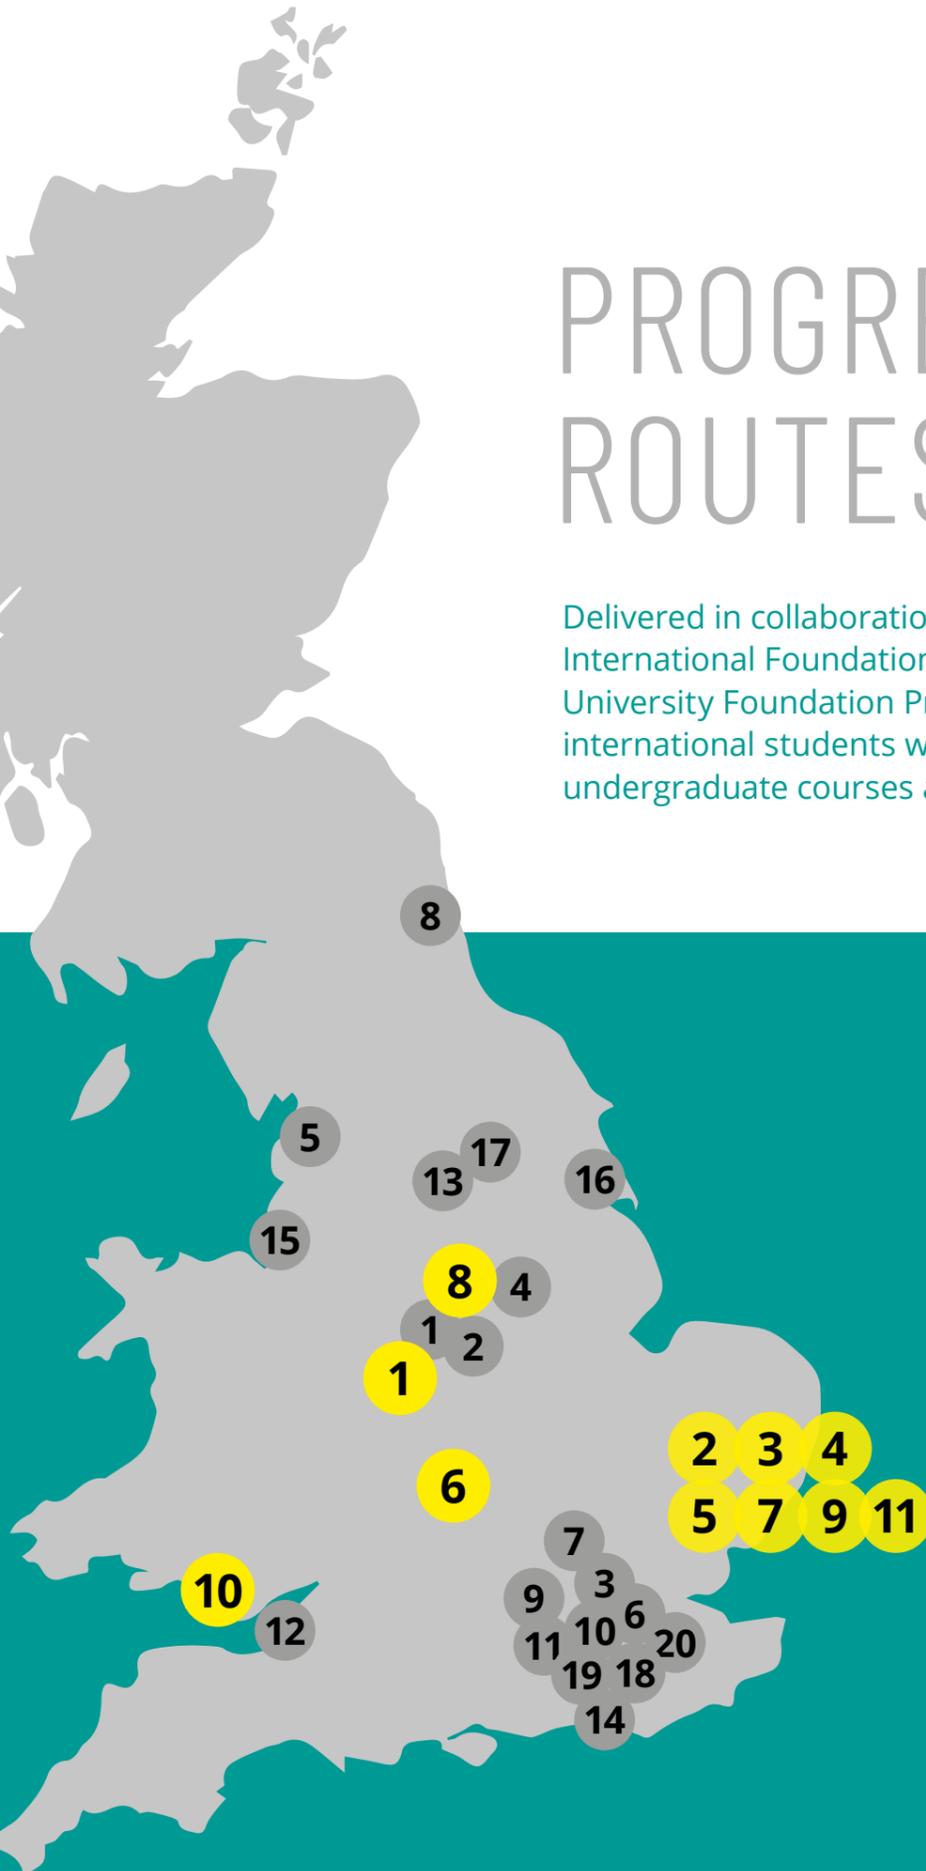

## GUARANTEED ACCESS TO 11 UNIVERSITIES

After two or three school terms, you will be eligible to receive offers from up to 11 of our esteemed partner universities. In addition, students have also received offers from 20 highly ranked universities across the country.

## RECEIVE OFFERS FROM ACROSS THE UK

## Travel to London

via our personal Airport Transfer

## Join our Online Orientation

and get to know your fellow international students and our staff.

## Congratulations!

You've completed your foundation year programme and received an International Foundation Certificate and a UK university offer!

If you study at a top London university, you can continue to stay with us through our sister brand, The Stay Club. You can keep your room in Kentish Town, or try out one of our other campuses.

# UNIVERSITY FOUNDATION PROGRAMME DETAILS

Stay Campus London's University Foundation Programme consists of academic modules, study skills, and one-to-one tutorials. It is designed to provide international students with the skills and knowledge required to succeed on their chosen degree course.

As part of the core University Foundation Programme, all students will have classes specifically designed to prepare them for academic life in a British higher education environment.

## Standard Modules

Communication Skills

University Study Skills

Group Work and Projects

Academic English

Language Support

**In addition, you can choose from a range of competitive degree specialities such as**

Art and Design

Business Management

Engineering

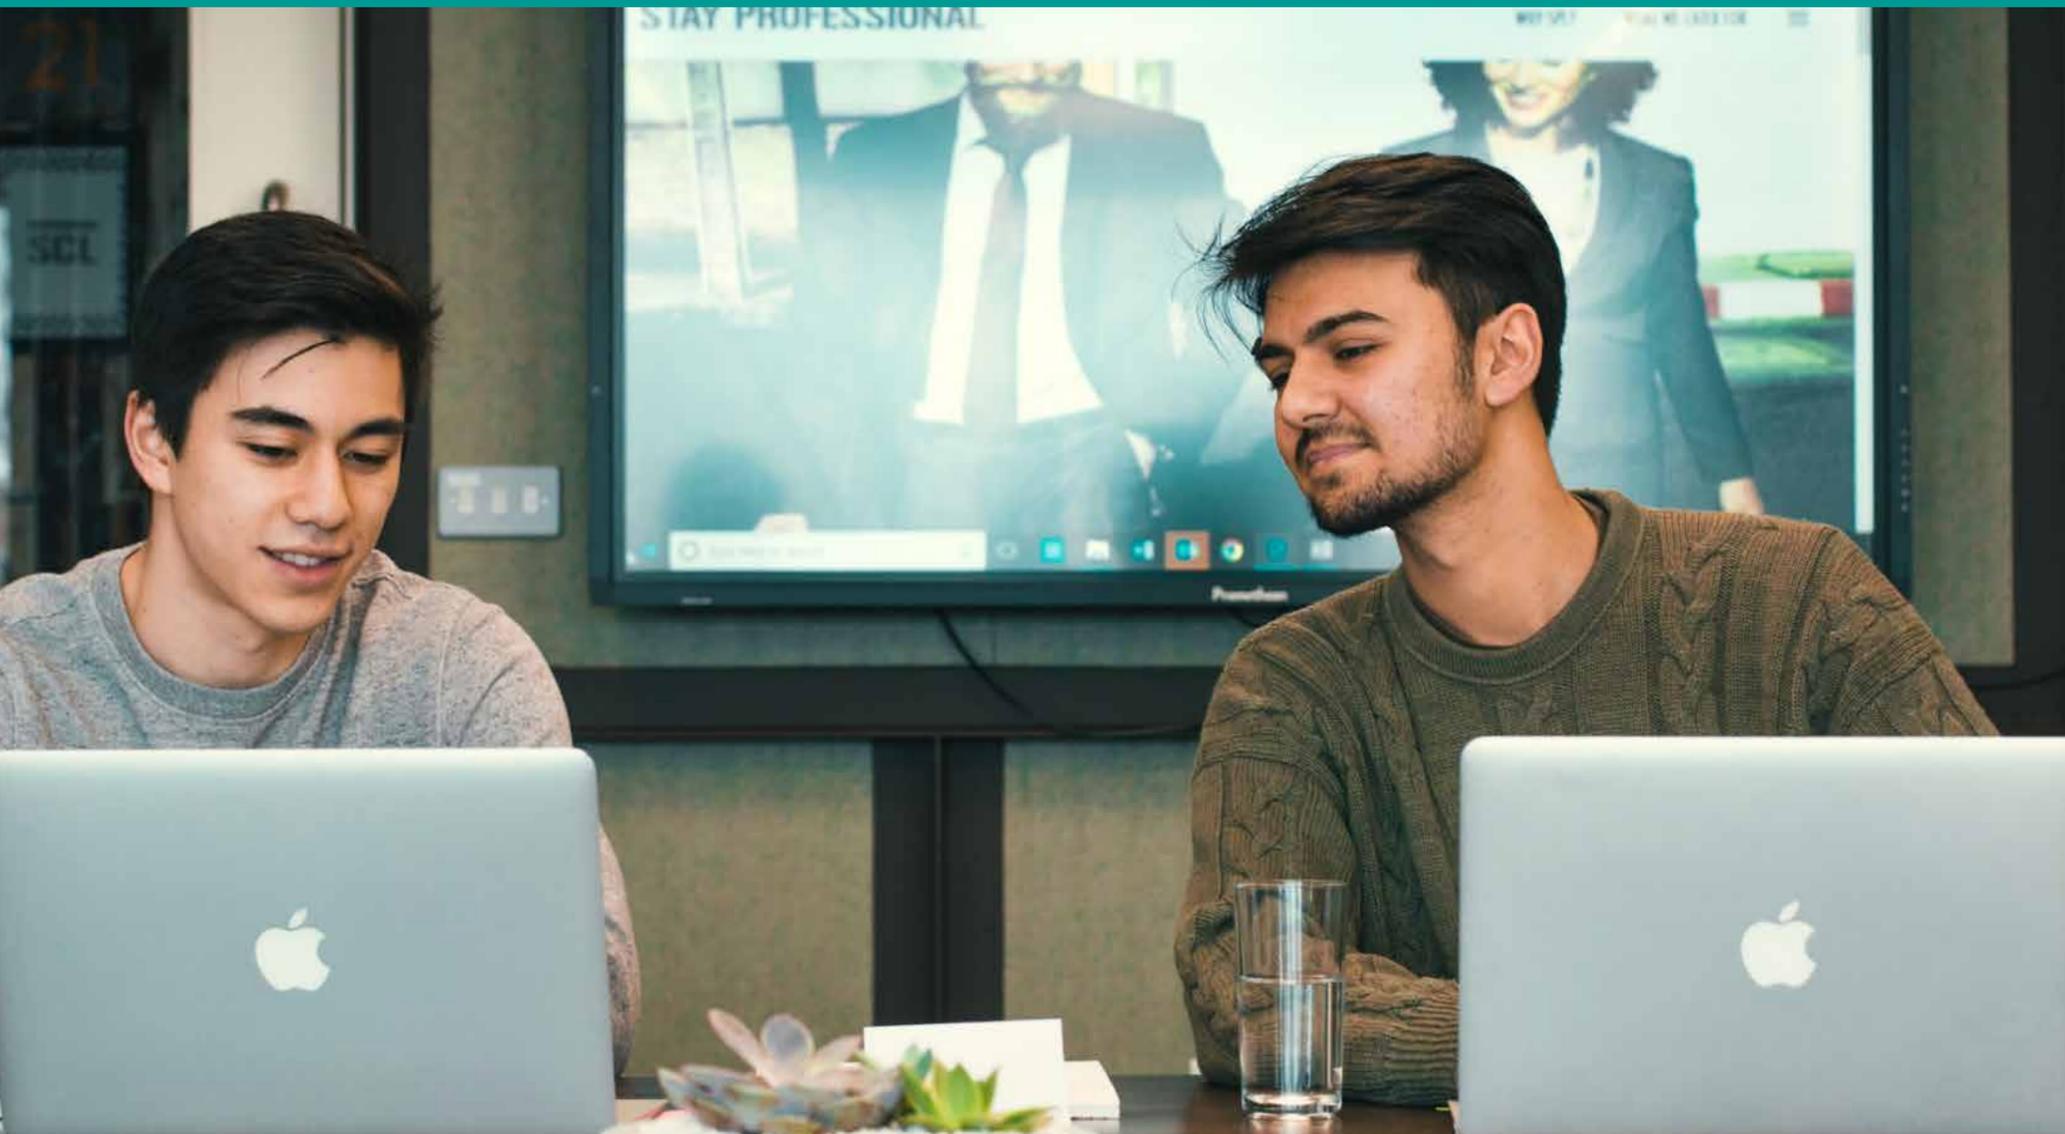

Law and Social Sciences

Medicine

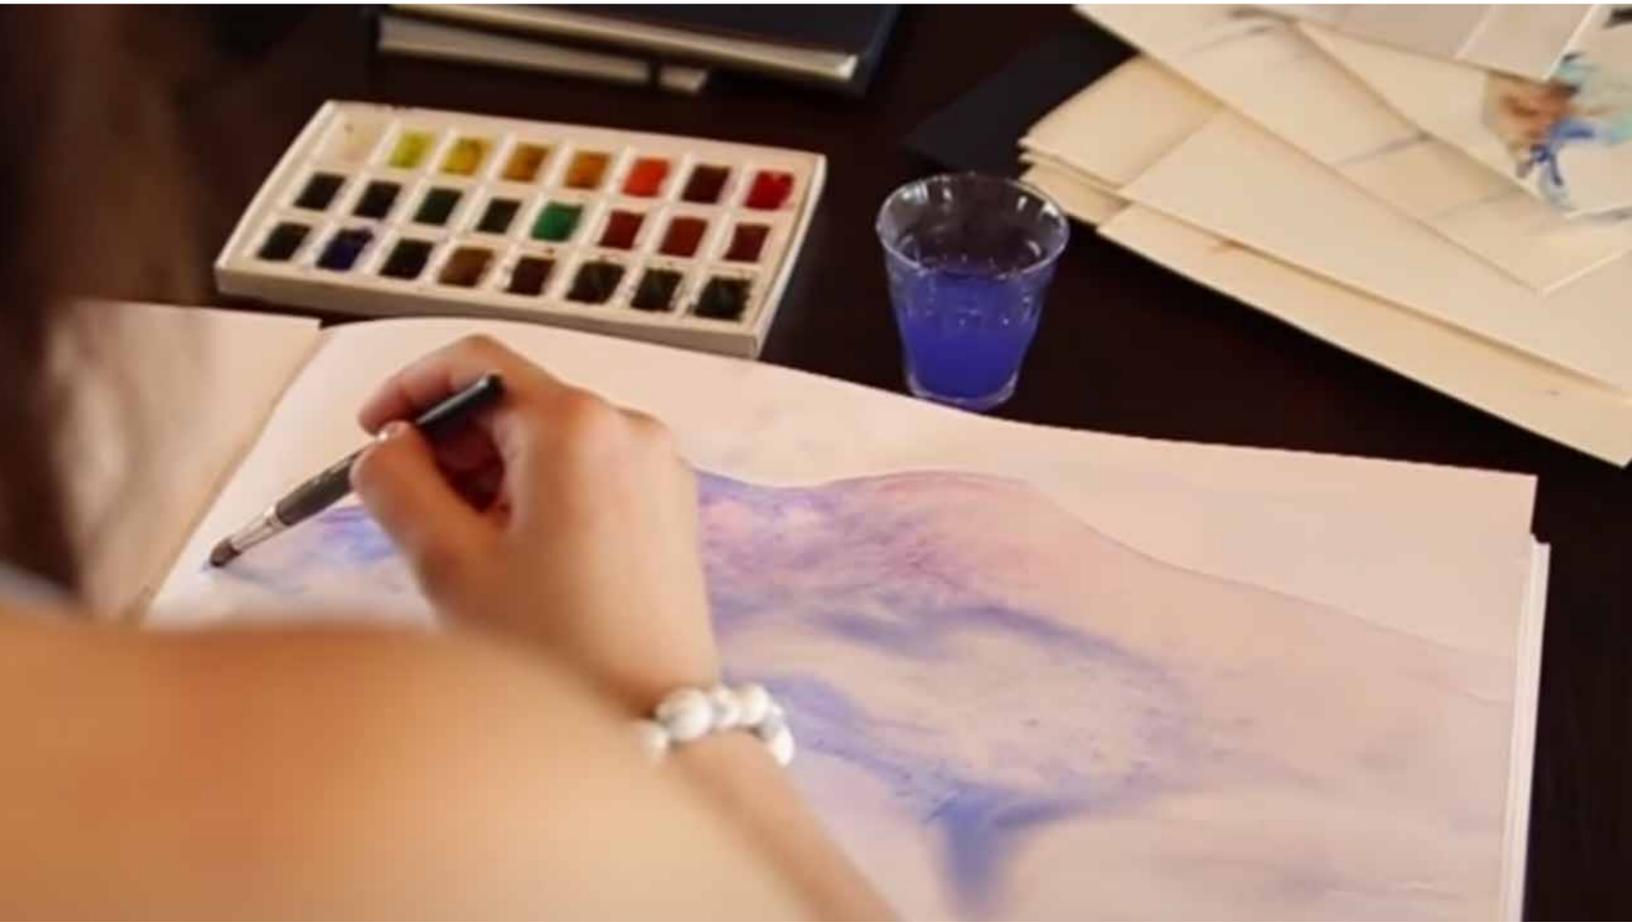

As an international student my biggest concern was the language barrier. Whenever I asked a question, the teacher always answered patiently, which really increased my confidence. When I made my applications to universities, my mentor always coordinated the process smoothly and swiftly.

**Lijia from China, currently enrolled at the University of Birmingham**

# 5 DEGREE SPECIALTIES

# ART & DESIGN

Our programme is specifically tailored to maximise creative exploration through art and design. You'll have the opportunity to develop a technical understanding of how to apply newfound skills and processes across a range of artistic platforms. Most importantly, we'll help you build a comprehensive portfolio that will support your UCAS applications to university.

## AREAS OF FOCUS

---

Visual Communication  
Art Direction & Concepts  
Graphic Design  
Media Communications &  
Creative Advertising  
Interior Design  
Portraiture  
Illustration & Animation  
Experimental Imagery  
& Photography  
Games and Art Design

---

## Animation

Students will explore both traditional and modern animation processes and techniques, whilst also developing computer-generated imagery for their own portfolio.

---

## Illustration

Our programme introduces students to a range of iconography and illustration skills, and examines their integration in published media such as posters, flyers, magazines, books, comics, teaching materials, video games, and films.

## Photography

Throughout the course, students are encouraged to use photography creatively as an artistic medium, exploring historical themes as well as peer- and self-evaluation.

---

## Creative Advertising

By examining strategy and design, and exploring the role of technology, students will analyse campaigns and commercials that creatively and effectively tell the story of a brand or non-profit.

# BUSINESS MANAGEMENT

The principle aim of this course is to prepare students for Business and Management-related degree programmes in the UK.

We encourage students to evaluate and apply information, and to appreciate the relationship between theories and concepts and the real world of business management.

## **Business Studies**

Trace the different stages of starting a business and overcoming ongoing internal and external challenges.

## **Management**

Learn how various types of organisations function in a competitive global environment.

## **Accounting**

Get introduced to the basic principles and application of financial and managerial accounting.

## **Economics**

Apply economic concepts and theories at a micro and macro level in both a national and international context.

## **AREAS OF FOCUS**

Business Studies  
Maths and Statistical Methods  
Current Themes in Social Science  
Corporate Social Responsibility  
Finance and Accounting  
Economics  
Customer Service Management

# ENGINEERING

This programme is designed for students who wish to progress onto undergraduate courses in any of the main areas of engineering including civil, mechanical, electrical and electronic, chemical and petroleum.

We excel in encouraging students to evaluate and apply information, and to develop the problem-solving skills required at an undergraduate level. Students will enhance their skills in planning, designing, executing, and analysing practical investigations and experiments. You'll also have the opportunity to complete a project that allows for more in-depth study of a chosen topic and helps to develop research and analytical skills which are important in order to succeed at a higher academic level.

## Physics 1 and 2

Develop knowledge and understanding as well as an appreciation of the applications of physics and its importance to different fields of human activity.

## Core and Further Maths

Ensure you have an appropriate level of mathematical and mechanical knowledge and competence to progress on to undergraduate studies.

## Engineering

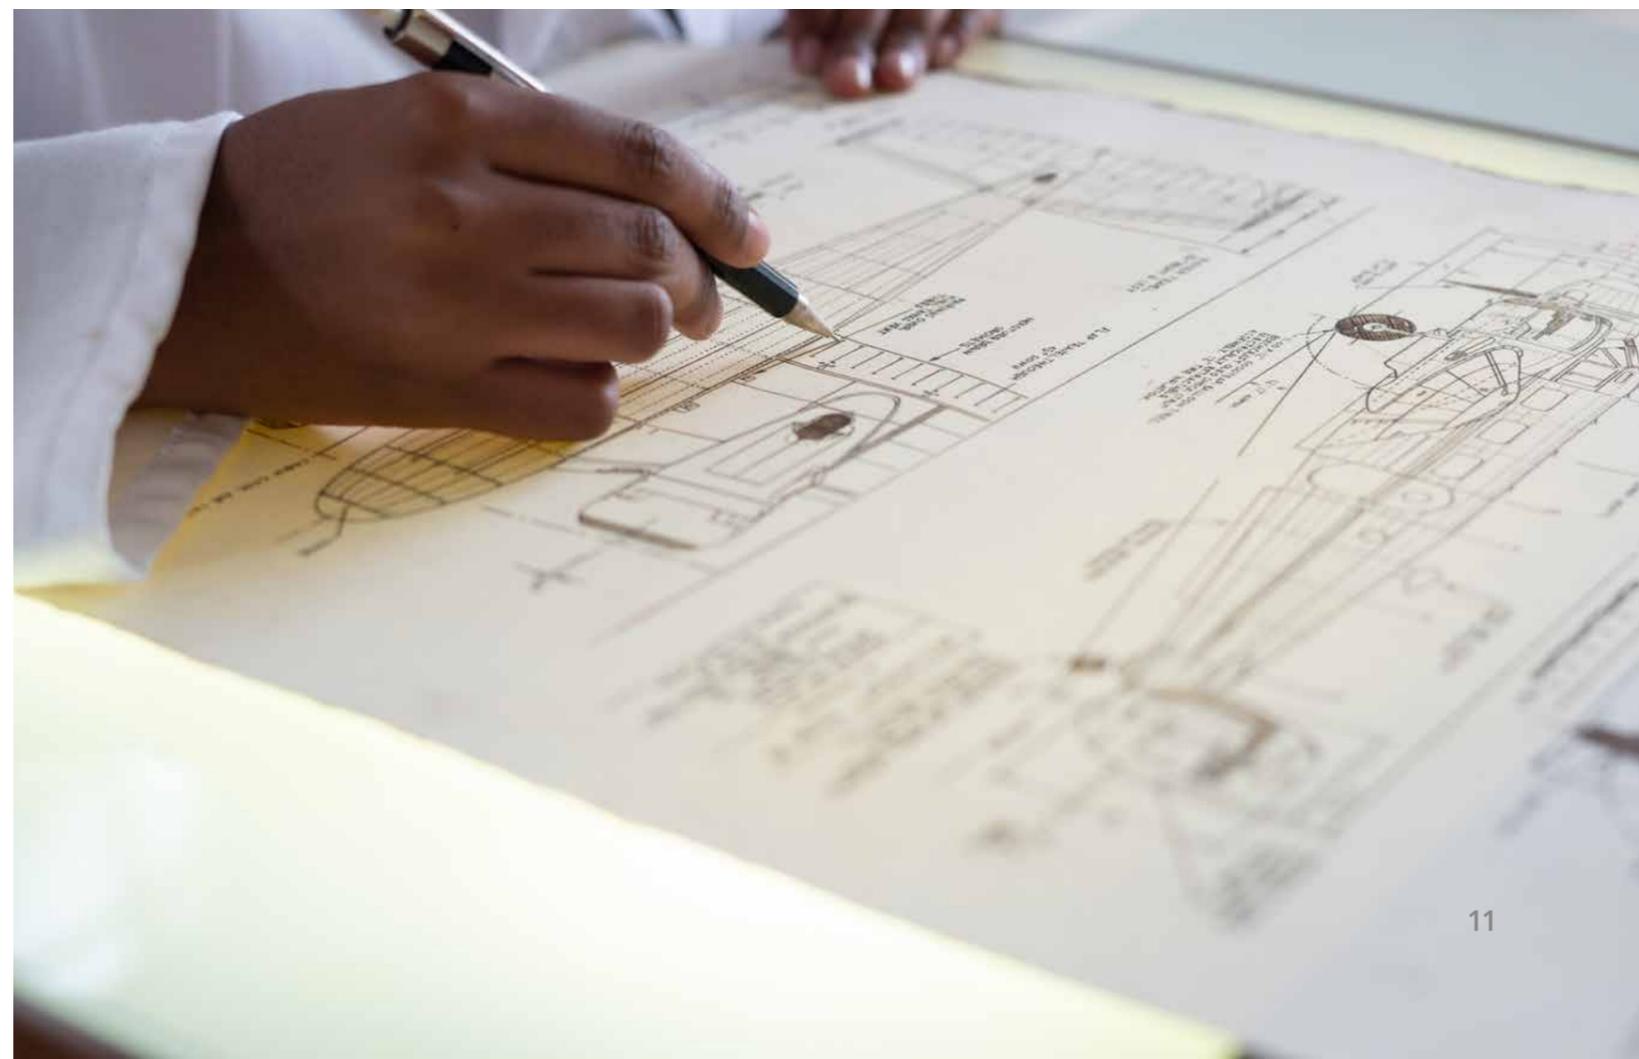

Study energetics, rates of reaction and equilibria, and perform multi-step calculations in each case.

## Core Chemistry

Introduces students to the fundamentals of physical, organic, and inorganic chemistry. Students start with atomic structure and the arrangement of electrons in an atom. They also learn how to calculate amounts of substances and how to write formulae and balance equations. The main types of chemical bonding and structures are also studied as well as functional groups of aromatic molecules.

## Computer Science

Covers a wide range of topics including programming, databases, networks and web development.

# LAW & SOCIAL SCIENCES

This course is intended for students wishing to progress onto higher education degrees in a range of social science subjects including Law, Politics, International Relations, and Economics.

Along the way, we'll encourage students to evaluate and analyse information, construct balanced, coherent arguments, and apply theories and concepts to current political, legal and economic issues.

## Law

Students will develop an understanding of the English legal system and processes, and learn how to apply legal rules, principles, and logical arguments to specific cases. You'll gain a rich knowledge base around law making and interpretation, court systems, negligence, and contract law. In addition, the course covers the study of criminal law and explores issues of morality, justice, and judicial creativity.

## Government and Politics

Get introduced to political systems, representative processes, and institutions in the UK. You'll examine the relationship between the legislature and executive, and question the strengths and weaknesses of democracy in modern society. There is also a strong emphasis on applying knowledge to contemporary politics such as the General Election in 2015.

## Social Sciences

Compares and contrasts political institutions and processes in the UK and USA, and challenges students to evaluate and analyse how successfully power is dispersed within a political system.

## Economics

Through a combined study of micro and macroeconomics, students will explore a range of themes drawn from national and international contexts. This course promotes an understanding of economic concepts and theories through a critical consideration of current economic issues, problems, and institutions that affect everyday life.

## TIP

You might also enjoy Stay Campus London's Introduction to UK Medicine course. This is a one-week class which can be taken as a pre-cursor to your UFP to get a taste of what it's like to be a doctor or healthcare worker in the UK.

[See our website](#) for a quick course overview.

# MEDICINE

This programme is specially designed for students wishing to progress into medicine, dentistry, pharmacy and other life science fields including Biomedical Sciences and Pharmacology.

Medi-pathways courses have achieved an extraordinarily high level of success in enabling students to progress into UK medical and dental schools, as well as universities offering related degree courses. Our programme provides an understanding of how the human body works through the study of anatomy, physiology and biochemistry. It also introduces the fields of pathology, microbiology, virology and parasitology, genetics and public health. To prepare for higher education, students have the opportunity to carry out their own research project in their final term at Stay Campus London.

Our Medical Foundation Programme offers admission into the one year Pre-Med programme at the University of Buckingham which, in turn, offers a direct progression route into Buckingham's four and a half year medical degree programme.

This innovative programme is accredited by NCFE (Northern Council for Further Education), a 170+ year old not-for-profit national organisation that recognises qualifications and awards which is also authorised by Ofqual (Office of Qualifications and Examinations Regulation).

## AREAS OF FOCUS

Genes, Cells and Development

Atoms, Molecules and Reactions

Measurements in Life Sciences

Medicine, Disease and Society

Tissues, Systems and Regulation

Periodic and Organic Chemistry

Investigations in Biomedicine

# ENTRY REQUIREMENTS

Students who enrol on our University Foundation Programme typically have good high school grades and an English language level equivalent of:

IELTS: 5.0  
TOEFL: 40  
Cambridge English: 154  
CEFR: B1

## NEED TO IMPROVE YOUR ENGLISH BEFORE ENROLLING? NO PROBLEM!

Stay Campus London offers General and Intensive English classes as well as exam preparation courses, such as IELTS, year-round.

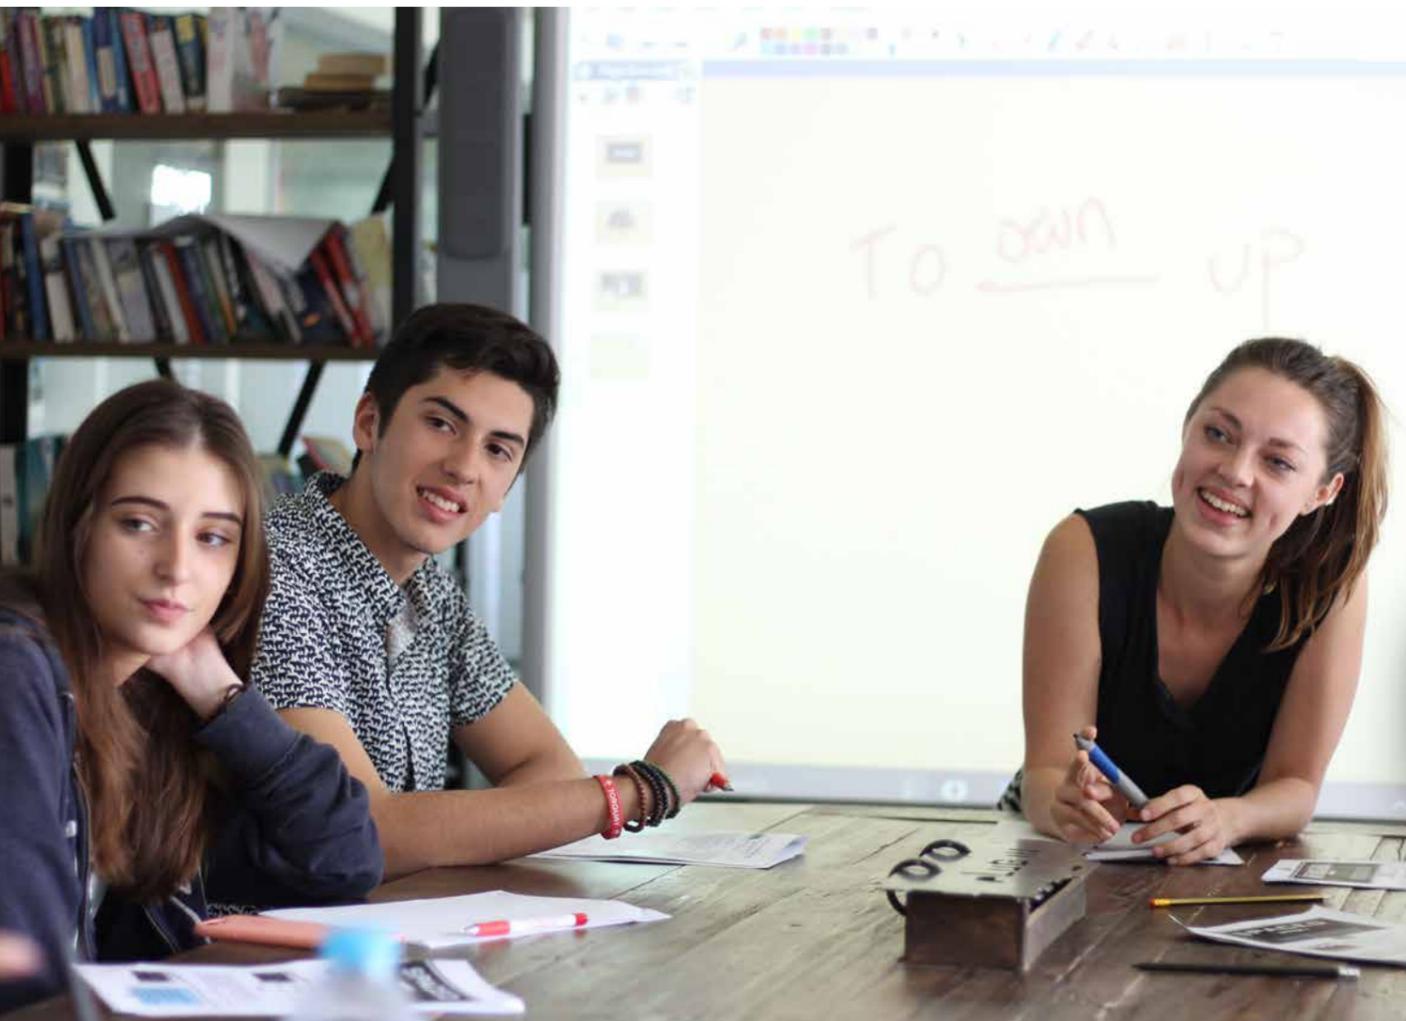

Learners can enrol onto courses starting on Monday every week of the year (except from December 25 till January 2 when the school is closed).

[Contact us](#) to book your [Assessment Interview](#) and discuss your individual education background and goals.

# HOW TO ACHIEVE FAST TRACK RESULTS

For students who are looking to progress quickly with a specific learning goal in mind, we recommend our Intensive English course which includes 30 hours of classroom time per week. For that extra push, we also have one-to-one lessons. If students apply themselves in class, get involved with social activities and complete self-guided homework, then they will make rapid progress towards attaining the required level for further study.

Paul Clarke, Academic Manager  
Stay Campus London

## VISA ADVICE

Our team is pleased to provide you with all the practical help and advice you need prior to arrival.

The visa application process can take up to 12 weeks to complete, so we advise you to start as early as possible. Up-to-date visa application information including costs and the process can be found on the UK government website.

[Please contact us](#) for further information.

# HOW TO APPLY

## How to Apply

To book your course, you can contact your local recruitment agency and Stay Campus London partner, or contact us directly:  
[info@staycampuslondon.com](mailto:info@staycampuslondon.com)  
+44 (0)203 141 7539

**Our staff speak 19 languages!**

## Student Guarantee

For peace of mind, our flexible guarantee gives students the confidence to book and continue their academic journey. If travel restrictions are in place, we will refund the accommodation funds and offer a robust online programme including lessons, tutorials, a social programme and more.

This programme provided a great foundation, giving me the skills I needed for studying at university and helping me step by step with the process of choosing the right university.

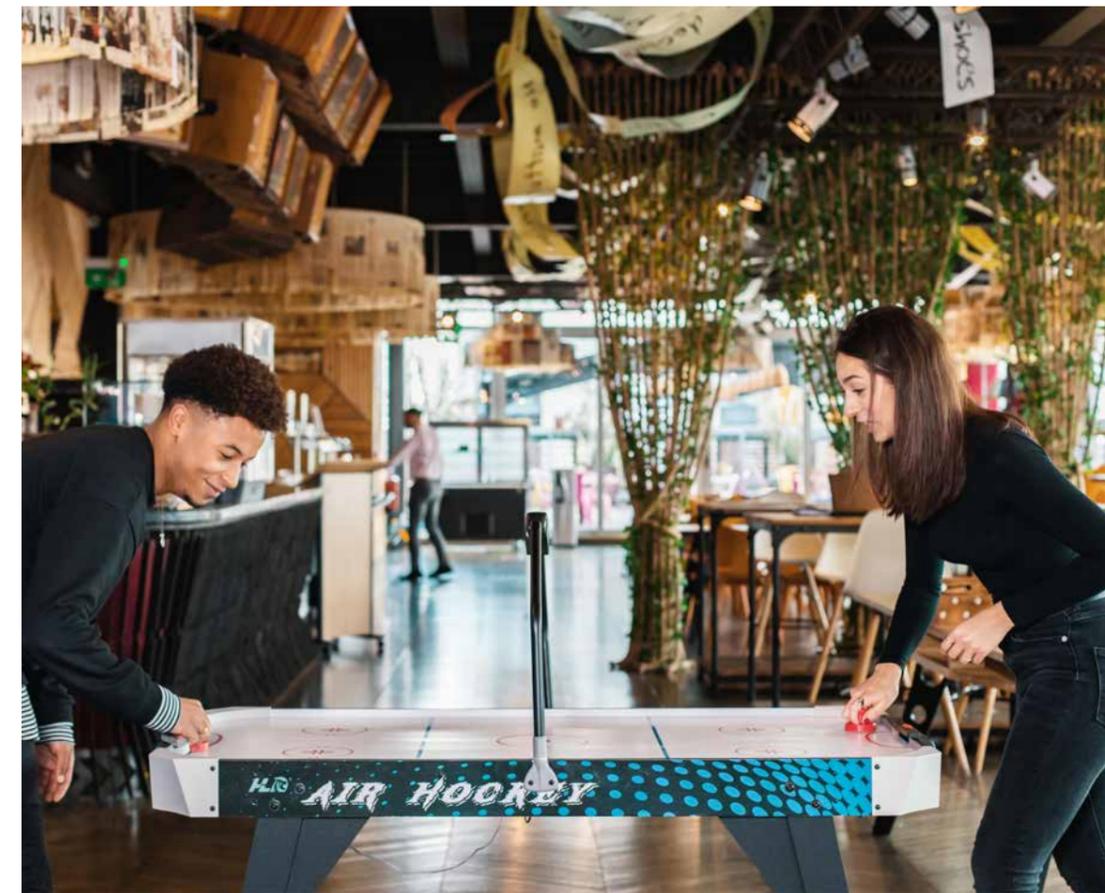

Maggy from China, currently studying at Reading University

CAMPUS =  
COMMUNITY

# BE PART OF A DIVERSE STUDENT BODY

Stay Campus London provides a ready-made community of international students from over **85 countries**.

# LIVE + LEARN UNDER ONE ROOF
